

特長 Features

- 日立協業を通じて、高安全性なフィジカルAIをデータドリブンで開発可能とする**智能基盤**を世界モデルとデジタルツイン技術を用いて構築

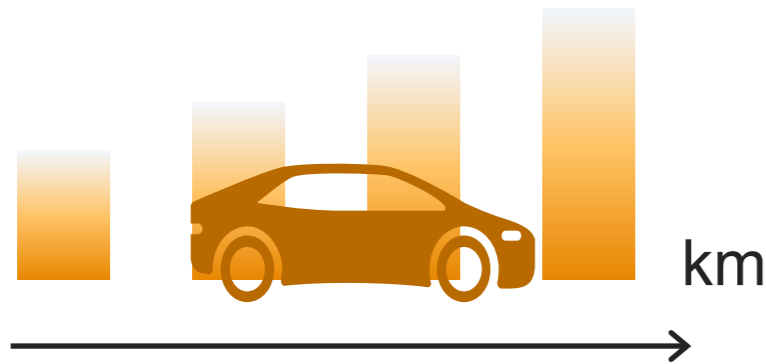

Through collaborating with Hitachi, we are developing an intelligent platform that enables data-driven development of highly safe physical AI, utilizing world models and digital-twin technologies

- **基盤の継続学習**で成長し続けるフィジカルAI設計を実現

Realizes design of continuously evolving physical AI through the continuous learning of underlying platform

技術 Technology

Drive to data

Physics to data
